📍 **Location**: Ahmedabad, Gujarat

✅ Professional Summary

Software Developer with 2+ years of hands-on experience in building scalable web applications, RESTful APIs, and dynamic data-driven solutions. Strong in **C#, .NET Framework**, **.NET Core**, **MYSQL Server** and **MS SQL Server**, with a proven track record of delivering high-performance software across domains like IoT and energy. Quick learner, effective team player, and committed to continuous growth in emerging technologies.

✅ Technical Skills

Languages & Frameworks: C#, .NET Framework, .NET Core, ASP.NET Core

Database & Tools: MS SQL Server, MySQL, Workbench

Web & Frontend: HTML, CSS, JavaScript,

API Development: RESTful APIs, Web API, Third-Party Integrations

Reporting Tools: Telerik Report Manager, Web API Data Source, Object Data Source

Tools & Platforms: Visual Studio, Git, Postman

✅ Professional Experience

Software Engineer

HKRP Innovation Pvt. Ltd. – Ahmedabad
📅 *Jan 2023 – Present*
Role: **Full-Stack .NET Developer**

As a core team member at **HKRP Innovation**, I played a pivotal role in designing and developing enterprise-grade **applications** and **API systems** for clients in the **energy and utility domain**. My responsibilities included **end-to-end development, database design, API creation, reporting, and deployment**.

Key Responsibilities:

- Developed and optimized RESTful Web APIs using .NET Core, facilitating seamless data transfer between systems.

- Created data-driven reports using Telerik Report Manager and integrated them with Web APIs and Object Data Sources.

- Built secure and scalable Windows Forms applications for data visualization and internal tools.

- Managed SQL Server databases, including writing stored procedures, views, and performing data analysis for client reports.

- Participated in project planning, provided technical documentation, and worked closely with cross-functional teams.

- **Major projects like**:

    o **ONGC Well Project** – API development and system integration.

    o **Smart Feeder Management System (SFMS)** – Real-time energy data monitoring and visualization.

    o **Distribution Transformer Reporting System** – Multi-level reporting and access control features.

    o **VFS DT Project** – Parent-child data modelling and secure data layer implementation.

    o **Upadhi (MPCSS) Project** – Built secure APIs using **.NET Core**, managed backend databases, and implemented **audit logging and security layers** across all modules.

Technologies Used:

C#, .NET Framework, .NET Core, MY SQL Server, MS SQL Server, Web API, Telerik Reporting, Git, HTML, CSS, JavaScript

EDUCATION

Master of Computer Application (MCA) | Gujarat Technical University
Ahmedabad | 8.5 CGPA | 07/2021 - 04/2023

Bachelor of Computer Application (BCA) | Shri Govind Guru University
 Vadodara | 8.2 CGPA | 07/2018 - 04/2021
